

Female Officer Special Operations based Use of Force Summer Training Camp

Installing effective, tangible Self-Protection and integrated Use of Force Skills within the average Female Officer
July 26th – 27th, 2010

Times: 10AM to 4PM

\$225.00 per person – to Register Call: 416.456.3273

Admission to training event after phone interview process

As a female you will be able to effectively use the tactics learned at this camp immediately. You will see a significant increase in your physical abilities and personal confidence.

Guaranteed... or your fee is returned to you.

No previous martial arts or athletic background required

For too long females and smaller males have been treated exactly the same within Law Enforcement, Military, Security and civilians circles when it has come to the training of professional self-protection and Use of Force tactics. This has always put them at a very significant disadvantage and especially within professional services has been the cause of much frustration and fear as they have always found it very difficult to make “work” the same techniques and tactics taught and used by their much larger and stronger counterparts.

There is an answer: **A system designed very specifically for smaller females**

This is **NOT** a simple “repackaged” presentation of a typical “kicking, punching and pressure point” based system.

At the conclusion of the training program you will be producing under stress simulation without vision...

- 360 degree No-Vision ability to disengage from non-telegraphic, surprise engagement
- 360 degree No-Vision Use of Force Option Retention
- 360 degree No-Vision ability to escape from traps when U of F options are presented
- Deployment Safety Options – Having options presented the ability to affect low-level defense or controls upon passive or active resistive subjects without sacrificing the readiness of U of F

options

- Low Visual, Tactile based Non-Mechanical (no joint locking, leveraging, pressure point) subject controls
- Counter MMA Ground Extraction Tactics
- How to flow within entangled engagement from Subject Interview Position ("0 position") to the 2.5 position for subject control
- Vehicle Extraction Tactics
- Close-Quarter Edged Weapon and Firearm Threat Response
- Expandable Baton Integration Tactics
- Extreme Officer Survival Tactics

Canadian Use of Force Systems has taught this program to Canadian Military and American Federal Female Special Agents with excellent response and support. References are available for requesting services.

Training Location:

It will be located in the Lower Hall at:

St. Catherine Of Alexandria Catholic Church – (Bond Head – 2 minutes west of Bradford, Ontario – Just north of Newmarket)

56 Hearn Street, **Bond Head**, ON Canada L0G 1B0

We will be in the Lower Hall of the Catholic Church that is just north of the main intersection of Hwy #88 and Hwy #27 on the opposite side.

Directions:

No matter whether you are coming from Toronto or Barrie drive up or down Hwy #400 to the Bradford, Hwy #88. If you are coming north it's the exit right after Hwy #9, Newmarket. If you are coming south on 400 from Barrie it is the exit just south of Hwy #89 Cookstown – the Outlet Mall. Get off at Hwy 88, Bradford and drive west about 2 minutes. You will drive straight into BOND HEAD. At the main intersection simply drive straight through it and take a right turn on **Hearn St**. This little road will take a turn to the right and will end-up right in the church parking lot. Come in through the main doors at the parking lot and walk downstairs.

If at anytime you are having issues with the directions or arriving on time, please call me on my cell: **416.456.3273**.

Attendance Provision: Commitment for involvement:

A \$100 cancellation fee to cover placement and facility rental costs will be charged to anyone who commits to a training spot and then cancels at last moment. If you have any questions, please contact us.
